PROGRESS REPORT #3

Primary Details of Student	Company Details
Name of Student/Intern: **Christine Joy Villanueva**	**Name of Company:** **Huawei Philippines**
Course: BS Business Management with Specialization in Business Analytics	**Name of Supervisor:** **Li Jialiang**
Internship Track: Operations/Sales	**Date: October 29, 2026**
Name of Faculty Adviser: **Dr. Jessica Jaye Ranieses**	**AY/Term:** **Term 1, A.Y. 2026-2027**

Please indicate your work accomplishments based on my internship's Key Performance Indicators (KPIs)

Accomplishment	KPI/Target (based on your workplan)	Indicative Time	Key Insights (Knowledge, Skills, Values)
1. Supported WSI in organizing and executing two industry events—the PICTO TechTable Discussion and the CHED AI Summit—focused on leveraging AI and exploring its practical applications in business and higher education.	**Active Deal Support:** Take a direct-support role in 2-3 active partner deals, handling preparation and follow-up. **PBD Shadowing:** Shadow at least 2 more PBDs on different accounts to observe how they build customer trust. **CSP Distributor Program:** Onboard existing CSP partners to distributor program to	20 hours	Strengthened my event coordination and industry engagement skills while gaining exposure to AI applications in businesses and higher education.
2. Facilitated weekly cadence meetings with WSI to address sales, marketing, technical, and business planning concerns, align priorities, and monitor ongoing initiatives.		48 hours	Improved my communication and problem-solving skills by helping address distributor concerns across sales, marketing, technical

	gain firsthand experience in partner enablement.		support, and business planning.
3. Updated and monitored WSI's pipeline sheet and Revenue Track 3 sheet to track sales opportunities, monitor revenue performance, and maintain accurate reporting of business progress.		8 hours	Enhanced my data management and analytical skills by updating sales pipelines and monitoring revenue performance.
4. Supported WSI in onboarding three new partners by assisting with the onboarding process and facilitating their integration into the Huawei Cloud partner ecosystem.		8 hours	Developed my coordination and partner relationship management skills by supporting the onboarding of three new partners into the Huawei Cloud ecosystem.
5. Supported WSI in the transition of bneXt's customer accounts, including two major high-revenue customers, to ensure continuity of account management and business operations.		16 hours	Gained experience in customer account management and stakeholder coordination while supporting the transfer of major high-revenue customer accounts to ensure business continuity.
Total		**100 hours**	

DEVELOPMENTAL PROFILE

1. Key workplace insights that enabled me to apply my skills, knowledge, and values.

   My final 100 hours, completing my required 300-hour internship, focused on supporting Huawei Cloud Philippines' distributor, Wordtext Systems, Inc. (WSI), in its daily business operations. I managed back-end support for sales pipeline monitoring, revenue tracking, partner incentives, marketing, technical support, business planning, and partner onboarding. I also facilitated weekly cadence meetings, supported the onboarding of three new partners, assisted with bneXt's customer account transfer involving two major high-revenue customers, and helped WSI participate in industry events such as the PICTO TechTable Discussion and CHED AI Summit. These experiences allowed me to

apply my Business Management knowledge, strengthen my analytical, communication, and coordination skills, and understand how operational support, teamwork, and attention to detail contribute to business growth and the success of a distributor.

2. Areas of improvement

I still have a long way to go in developing my understanding of the cloud and AI industries, particularly in mastering industry-specific terminologies, understanding business processes, and confidently engaging with distributors and partners during deals and partnership discussions. I recognize that these skills require continuous learning and guidance from my supervisor, colleagues, and myself through independent learning and initiative, as understanding the cloud and AI market cannot happen overnight. Moving forward, I aim to strengthen my product and industry knowledge, develop my critical-thinking and problem-solving skills, and become more confident in business-facing interactions. Most importantly, I want to remain open to learning, ask thoughtful questions, and gain more hands-on experience to better understand how business strategies are applied in real-world situations.
